

RECOMMENDATION & LETTER OF APPRECIATION

12 SEPTEMBER 2026

TO WHOM IT MAY CONCERN

Juchepi Group & Pieter Pretorius

Professional recommendation based on the BukarSkywalker website redevelopment project

I am pleased to recommend Juchepi Group and Pieter Pretorius following my experience working directly with Pieter on the redevelopment and transformation of my BukarSkywalker website.

I approached Pieter with the objective of turning my existing website into a more professional, visually engaging and functional platform that could properly represent my work as a writer, poet, lyricist and creator.

Throughout the project, Pieter demonstrated a strong combination of technical capability, creativity, strategic thinking and attention to detail. His contribution went beyond simply changing the appearance of a WordPress website. He worked with me to restructure and improve the site, organise and present my music, poetry, books and other creative work, connect the relevant external platforms and social-media channels, improve navigation and the mobile experience, and strengthen the administration and security of the website, including the implementation of two-factor authentication.

What I particularly appreciated was his willingness to listen and refine the work properly. As I reviewed the website and requested changes, Pieter continued improving the site rather than treating the original specification as the end of the conversation. He paid attention to wording, presentation, spacing, mobile navigation and content placement because he understood that these details collectively determine the quality of the finished product.

The result is a website that I am genuinely proud of. Pieter did not simply build what I initially asked for; he also helped me think more clearly about what the BukarSkywalker website could become as a central platform connecting my creative work, audience and future commercial opportunities.

I also valued his commercial judgement. When I raised the possibility of promoting the site in South Africa through paid advertising, Pieter recommended that we first conduct a proper feasibility study, define the intended outcome, clarify the services to be promoted, and identify the relevant demographic and sociographic market segments before committing advertising spend. That approach gave me confidence that the advice I was receiving was focused on making the next investment commercially sensible rather than simply selling additional services.

On a personal level, I would like to express my sincere appreciation to Pieter and to acknowledge the standard of work associated with Juchepi Group. His patience, responsiveness and commitment throughout the development process made a significant difference. By completion, I had enough confidence in the finished website that I did not want to make changes to the Hostinger installation without first discussing them with him.

I would therefore have no hesitation in recommending Juchepi Group and Pieter Pretorius to an individual, entrepreneur, creator or organisation looking for practical website development, thoughtful problem-solving, strong attention to detail and commercially grounded guidance.

Thank you, Pieter, for what you created for BukarSkywalker and for the professionalism and commitment you brought to the project. I genuinely appreciate what you have done and look forward to the possibility of working with you and Juchepi Group again as the platform develops further.

Recommended: Juchepi Group and Pieter Pretorius

For website development, digital transformation, practical problem-solving and commercially grounded project guidance.

Yours sincerely,

Bukar Mamadu
